

Information Technology Committee Chair – Dr. Kamrul Hasan

The Information Technology Committee is a standing committee charged with the following tasks:

- maintaining, updating, and securing the Faculty Senate website;
- identifying, reviewing, and recommending information technology policies;
- ensuring that Faculty receive appropriate training and assistance with implementing new technology in teaching and learning;
- representing the Senate on key university committees that address information technology;
- reporting to the Senate on key information technology issues and developments that affect the campus.
